

About CSPPT

It's a certificate course that's offered for the first time for Pharmacy Technicians.

- It will be an online LIVE course moderated on Zoom/Teams.
- Most of the pharmacy technicians work every other weekends. So, it is conducted every other Saturday. This offers the technicians a choice of picking either Saturdays A or Saturdays B depending on their OFF weekends.
- The course is 6 sessions long, meaning 6 Saturdays, approx.-2.5 months.
- After each online session/class, the course material will be emailed to the participants.
- After finishing all 6 sessions, a final open book exam will be sent via email. Passing the exam with at least 70% will grant the technicians a Certificate of completion of the course.

Who We Are

About Us

Glucocious, a subsidiary of YappApps LLC is the name of a mobile app created by YappApps LLC for diabetes education. But it's also used for branding other educational ventures like CSPPT. CSPPT is the first ever Certification course in Specialty Pharmacy for Pharmacy Technicians
